

IMPORTANT!

Notification about the features of the current medical insurance

CORAL CLUB hereby informs all participants that during the event “Gold for Gold Turkey” from February 16 to 23, 2025, in Turkey, as part of the package tour, life and health insurance for vacationers is provided under standard terms (the policy is attached).

Attention to vacationers with chronic diseases, pregnant women, and families traveling with young children.

Under the standard insurance conditions, the exacerbation of chronic diseases requiring medical intervention (including inpatient treatment, surgical assistance, high-tech procedures), as well as assistance during labor and pregnancy support, are not covered as insured events, and expenses for such interventions (medical assistance) will not be covered by the insurance company or CORAL CLUB. Participants independently decide on such participation and bear all risks of adverse consequences resulting from the need for the aforementioned medical assistance and related financial expenses.

In case of such a situation, CORAL CLUB is ready to provide informational support within its capabilities.

Please carefully review the insurance conditions.

*Sincerely,
The CORAL CLUB Team*
